

# DLD-M5 LASER MEASURING TOOL

Small, compact and lightweight, the DLD-M5 Laser measure enables rapid and easy measurement to most surfaces.

- Simple to use
- Auto Power Off function
- Area & Volume calculation
- Compact design
- Complete with carry pouch

The DLD-M5 has a range of up to 50m, with typical measurement times of around 1 second.

Its compact size and illuminated display provides ease of use even in low lighting conditions.
