

DATUM DPL5 PLUS

Automatic Levelling Cross Line 5 Beam Pulse Laser

The Datum DPL5 PLUS Automatic Laser Level provides five bright spot beams for easy squaring applications. The DPL5 PLUS also provides a cross line beam capability, projecting bright sharp red beams both horizontally and vertically.

THE DPL5 PLUS is a PULSE BEAM LASER, which enables the cross line Laser beams to be detected by a Pulse Detector, ideal for internal or external use.

The DPL5 PLUS is supplied with a mini telescopic tripod, magnetic mount, magnetic target, floor trivet, pulse detector, clamp, laser beam enhancement glasses, soft protective DPL5 PLUS case, batteries, instruction booklet and moulded protective case.

SPECIFICATION

Fan Angle		150°
Power Voltage		4.5V DC
Accuracy	Horizontal	+/- 3mm/10m"
	Vertical	+/- 3mm/10m"
	Zenith/Nadir	+/- 1.5mm/3mm
Range (with Detector)		30m
Laser Diode		635nm+/-5nw Class IIM
Operation time		Up to 7 Hours (Alkaline)
Warranty		2 Years Parts RTB type
